Touch board rev D - back (parts side), seen from the back

All parts fitted, none DNP. U1 AT42QT1070 from Daniel's stock (D56); pin 1 at the chamfered corner.
J1 HOST pads (labelled VCC, GND, SDA, SCL): the touch lead from main-board J6 is soldered here, no paste.
The front carries only the four electrodes: KEY0-KEY3 left to right, seen from the front.
